OBJECTIVE

To apply my knowledge as a Bachelor of Science in Information Technology (BSIT) student, enhance my technical and creative skills, and gain practical experience through an On-the-Job Training opportunity that will prepare me for future employment.

TECHNICAL SKILLS

- Basic knowledge of MS Word, Excel, and Photoshop
- PC troubleshooting, reformatting, and OS installation
- Basic programming (HTML, CSS, JS, PHP)
- Moderate skills in graphic design (creating 2x2 ID photos, certificates, and banners)

EDUCATIONAL BACKGROUND

2021 - 2022	Iligan Computer Institute Information Technology Bugo, Cagayan De Oro City
2025 - Present	Tagoloan Community College Bachelor of Science in Information Technology M.H. Del Pilar Street, Barangay Baluarte, Tagoloan, Misamis Oriental

WORK EXPERIENCE

2023 - 2025	3D Lidar Annotation Annotator <ul style="list-style-type: none">• Annotated and labeled 3D LiDAR point cloud data for machine learning and autonomous systems.• Accurately identified and classified objects, including vehicles, pedestrians, and road features.
-------------	--

ACADEMIC / PRACTICAL EXPERIENCE

- Acted as a developer for the capstone project "Malnutrition Profiling and Monitoring System" (bns-santacruz.com)
- Designed certificates, 2x2 ID photos, and banners using Adobe Photoshop and Canva.
- Edited short videos and multimedia presentations using CapCut and Filmora.
- Performed basic PC troubleshooting, reformatting, and OS installation.
